

1. What inspires you about your career: Resolving problems that the others suffer from to make their life easier using data-driven approaches

2. who inspires you in your domain: There is no one in particular

3. Tell us about an unusual habit of yours or about a unique trait: I like watching movies, and series, and deep dive into the details of the one I watch (e.g., budget of the move, profit, rare causes happened during the shooting of the move)

4. What's something outside of your work that you're passionate about: Learning new basic things in different fields (e.g., Finance, Economy), Watching movies, series, going out with my close friends
